

# Nexus use Cases

## RWA

**Zero tolerance for bridge risk**

**Regulatory & custody constraints**

## Stabelcoins

**High volume, low margin transfers**

**Need predictable & cheap cross chain rails**

## Utility Tokens

**Multi-chain user acquisition**

**No internal bridge maintenance**

## Others

**Liquidity fragmentation**

**Security-first expansion**

# Nexus value

## One Nexus Infrastructure

- **No dependency on canonical bridges (Wormhole, LiFi, Meson, etc.)**
- **Access new cross-chain audiences**
- **No internal bridge operations**
- **Ultra-low cost transfers**
- **Cost benchmarked against SWIFT**
